

Environmental Policy

Vision

Excellence in environmental management is key to our success.

Port Kembla Gateway Pty. Limited (PKG) aims to conduct business in an efficient and environmentally responsible manner, while fulfilling the expectations of our customers, employees, shareholders and the community.

Beliefs

- Environmental management is everyone's responsibility.
- Environmental management and performance can always be improved.
- Efficiency in our operations will decrease our environmental impact.

Commitments

- Port Kembla Gateway is committed to the protection of the environment.
- Port Kembla Gateway is committed to continual improvement of its environmental management practices.
- Port Kembla Gateway is committed to environmental management that minimises or prevents pollution and emissions associated with our operations.
- Port Kembla Gateway is committed to complying with all legal and regulatory requirements.
- Port Kembla Gateway is committed to setting environmental objectives, reviewing our performance and implementing continuous improvements.
- Port Kembla Gateway is committed to providing staff training to raise awareness of environmental issues and enlist support in improving our environmental management.
- Port Kembla Gateway is committed to GHG accounting and considering climate change as part of our operations.
